**MEMORANDUM FOR: Deputy Director for Intelligence
Deputy Director for Support
Deputy Director for Plans
Director of Research and Development, DD/S&T
Director of ELINT, DD/S&T**

To effectively coordinate the Agency's R&D program, identification of the various officers who may be working in any particular technical field is necessary. It would be appreciated if you would indicate on the attached List of Technical Fields the individual in your technical component who will be responsible for working out a coordinated program with others in the Agency also engaged in the same field. Coordinators should be designated only for those technical fields in which research and development is actually being conducted either internally or through external contracts. Fields in which activity is expected in FY 68 based on the current RD&E plan are marked with a check.
